3. FRIDA INTELLIGENCE ENGINE - ONE AUTONOMOUS RUNTIME

Deterministic truth + bounded cognition

DETERMINISTIC OBSERVATION / NORMALIZATION / PROVENANCE / DEDUPE

OBSERVE
Acquire + normalize

APPRAISE
What may matter?

RESEARCH
What is missing?

FORESIGHT
What could matter next?

BRIEF
Durable executive output

OPTIONAL CAPABILITIES Specialists + Independent Challenger only when warranted

DETERMINISTIC GOVERNANCE evidence | privacy | isolation | schema | spend | posture

4. PERSISTED STRATEGIC MEMORY

Append-only governed artifacts, current briefing, 2006 / 2021 historical briefs, evidence lineage.

5. JUDGE / END-USER EXPERIENCE

FRIDA in Action, Advisory, Briefings, Under the Hood and Raw Governed Record - public read-only.

6. TRUTH BOUNDARY

Advisory Yellow = POSSIBLE / INTERVENTION_OPPORTUNITY.
The current London advisory creates no canonical Case or Red.
FRIDA watches the city, not people.

CROSS-CUTTING FOUNDATION
provenance | temporal integrity | privacy | client isolation | schema validation | bounded spend | persistence

Governed Agentic Runtime

Specialized cognitive stages operate inside deterministic evidence, policy and persistence boundaries.

The model may write the sentence; it may not choose the posture.

How to Read the Architecture

Standards, truth boundaries and the current London demo scope.

RECOGNIZABLE ARCHITECTURAL PATTERNS

Hexagonal / Ports-and-Adapters

Domain and governance logic remain independent of cloud, model and source adapters.

Domain bounded contexts

Observation, evidence, appraisal, briefing and public projection retain distinct contracts.

Append-only auditable ledger

Persisted artifacts reconstruct what occurred without claiming full enterprise Event Sourcing.

Governed agentic workflow

One autonomous FRIDA runtime uses specialized bounded cognitive stages under deterministic authority.

CURRENT LONDON DEMO SCOPE

London only

Single active public client assignment.

Read-only public surface

Judges inspect results and evidence; public users cannot trigger governed writes.

Advisory Yellow

POSSIBLE / INTERVENTION_OPPORTUNITY - not canonical WATCH, Signal, Candidate, Case or Red.

Historical cutoff integrity

Historical briefs: 24-Nov-2006 and 15-Apr-2021; future evidence excluded by cutoff.

Limited public evidence fabric

The demo proves the process, not exhaustive London knowledge.

TWO LANES, ONE GOVERNED RESULT

JUDGE READING PATHS

EDITORIAL GUARDRAILS

- FRIDA watches the city, not people.
- A clue is not a conclusion.
- Foresight, not fortune-telling.
- We accelerate time, not evidence, truth or intelligence.

Strategic curiosity under governance - autonomy without semantic overreach.
